

## A SURE THING IN AN UNCERTAIN WORLD.

If you're a professional shooter, your livelihood—perhaps even your life—can depend upon transporting your firearms with the maximum in care and security.

Tuffpak cases—proven around the globe for over 25 years—will insure that your weapons and optics arrive in the same condition in which they left, whether traveling across town or around the world.

They offer the ultimate in flexibility, handling up to three scoped rifles or five shotguns of any configuration.

And, unlike ordinary gun cases, they do it without advertising what's inside.

You have enough things to worry about. Getting your firearms to their destination doesn't have to be one of them.

**TUFFPAK®**

## GUARANTEED FOR LIFE.

This is as simple as it gets: If anything breaks or becomes unusable on your Tuffpak case for as long as you own it, we will repair or replace it free of charge. All you pay is shipping.

You can buy dozens of lesser cases, and hope they protect your firearms.

Or, you can buy one Tuffpak. And make certain.

## THE ORIGINAL TUFFPAK

### Specifications

Outside dia.: 13"

Inside dia.: 10"

Outside height: 52"

Inside height: 50"

Weight: 18 lbs.

Lock: TSA approved or standard key

Capacity: 2-3 rifles or up to 5 shotguns (to 50") in soft cases, clothing, boots, etc.

Color: Black

### You decide what goes inside.

No restricting dividers means you decide how many firearms to pack, of virtually any configuration.

### Carries more than guns.

Pack clothing, optics, boots, handguns, or any other gear, too. No wasted space, saves hauling other bags.

### Discreet transportation.

The Tuffpak's exterior gives no indication of its contents. It's been called the "stealthy" gun case.

### Virtually indestructible.

No exposed feet, flimsy handles, exposed locks or other appendages that can be ripped off by baggage handlers. Lightweight, unbreakable high-tech shell impervious to moisture and chemicals.

### Free-wheeling travel.

Built-in roller blade-style wheels with precision ball bearings, protected by molded fenders, are virtually indestructible—and make rolling a Tuffpak a breeze.

New, more comfortable rubber handle lets you wheel a Tuffpak easily with one hand, or use the twin built-in carrying handles placed for optimum balance.

TUFFPAK TAKEDOWN

Two cases in one. Our Tuffpak TakeDown Case was created specifically to provide maximum protection for takedown rifles and shotguns (it's

*The TakeDown Long's extension collar lets you vary inside length from 32" to 36"*

ideal for ARs with collapsible stocks). It has a slightly larger diameter (11") than the Original Tuffpak, but measures just 34" top to bottom.

Our Tuffpak TakeDown Long has an extension collar that adds four inches (36" inside versus 32"), to accommodate longer firearms. Remove the collar, and you have a 32" case, too. It's the ultimate in flexibility and convenience.

### Specifications

Outside dia.: 14" x 13"

Inside dia.: 11"

Outside height: 34" (without collar)

Inside height: 32"

Weight: 20 lbs.

Lock: TSA approved or standard

Capacity: 2-3 shotguns or takedown rifles, plus extra barrels

Color: Black

### Know you're on target when you arrive.

There is no case on the market that provides better protection against shock and vibration that can affect precision optics. You'll arrive at your destination knowing point of impact is exactly where you expect it to be.
